## Burns II Li ery I Acquisitions

The Burns II Library has recently added a number of significant collections and individual items to its holdings. Most notably, along with the original Moyle Collection at the Irish Press Archive, it now includes the personal library of the late Michael Ó Siadhail, who was a prominent political figure in the 1970s and 1980s. This collection includes books on politics, history, and literature, as well as a large number of periodicals and newspapers from the era. The library also holds a significant collection of material related to the founding of Cumann na mBan, including documents, photographs, and artifacts. The library continues to serve as a valuable resource for research and education, providing access to a wide range of historical and contemporary materials.
